Significant Events:							
Remarks: Road closures are in effect as of August 20. Utilization of type 3 PSD carded helicopter is critical to completing the burnout. The current ship assigned is an IA resource and operations are committed to the burnout, losing air support would be detrimental to completing incident objectives.							
Planned Actions: Continue prepping existing trails and natural control features to support burnout operation. In areas where control lines have been completed burnout ops will continue with PSD and drip torch. As needed, continue point protection and shaded fuel break work around the south and east sides which include Merchant Valley Summer Homes and Big Johns Road. Continue burnout operations as conditions allow.
